INTRODUCTION
AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 850 city, county, state and national Directories, present to subscribers and the general public, this, the 1959 edition of the San Francisco City Directory.

Confidence in the continued growth of San Francisco's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting San Francisco to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Francisco Directory will fulfill its mission as a source of authentic information pertaining to the city.

Three Major Departments

The three major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of San Francisco, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a great metropolis and port city like San Francisco, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of San Francisco, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on green paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of San Francisco.

The San Francisco Directory Library

Through the courtesy of the publishers of the San Francisco City Directory, a Directory Library is maintained at the San Francisco Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

SITUATION

San Francisco, "City by the Golden Gate", whose City Hall is situated at 37 degrees 47 minutes north latitude and 122 degrees 25 minutes west longitude—on a hilly peninsula with altitudes ranging from sea level to 933.6 feet U. S. Base, is bounded on three sides by water. Of a total of 93.1 square miles, only 44.82 are land. It is among the few world cities with the distinction of having more than half of its entire area washed daily by the ocean's tidal currents.

San Francisco has within its boundaries three islands —Yerba Buena, Treasure and Alcatraz—besides the Farallon Islands group some 32 miles west of San Francisco, which have been included in the City and County of San Francisco since 1872.

HISTORY

Discovery

San Francisco owes its discovery and much of its history to the daring and adventure-loving early Portuguese, English and Spanish explorers. The romance of those early days clings to the city and lends charm to its atmosphere even today.

Through San Francisco's heritage is rightly credited to the Spanish, more than two centuries before Portola's arrival, Juan Rodrigues Cabrillo in 1542 discovered the Farallon Islands (now a part of San Francisco); next Sir Francis Drake, famed English explorer, passed by the Golden Gate and in 1579 discovered Drake's Bay, a few miles north of San Francisco, where the first church service in the English language on the Pacific Coast was held.

In 1769, Don Gaspar de Portola and his little band of adventurers were the first to glimpse the bay from the nearby hills on the south. Six years later the ship "San Carlos," in command of Don Juan Manuel Ayala, sailed through the Golden Gate to cast the first anchor in the bay. More than a century before, in 1603, Vizcaino visited what is now the Gulf of the Farallons and mapped it as Bahia de Puerto de San Francisco. This is the first time the name San Francisco appeared on record in connection with the vicinity of San Francisco.

Early Beginnings

The settlement of what is now San Francisco was just being founded by the Spaniards when the Liberty Bell pealed the birth of our nation. First Spaniards, then Russians, then Americans came and lived to enjoy life and to rule.

The site for the Presidio of San Francisco was selected on March 28, 1776, by Colonel Juan Bautista de Anza, and on March 29, the site for the mission. Mission San Francisco De Asis (Dolores)—a combination of Mission, Moorish and Corinthian architecture—was dedicated on Oct. 3, 1776, the Presidio having been dedicated the previous Sept. 17. While from the beginning the mission was called San Francisco, the settlement at the cove under Telegraph Hill was known as Yerba Buena.

For many centuries, history records, traders sought to reach the Orient through a western route. San Francisco was the westerly outpost in the days of sailing vessels. Growing in stature, the city has become one of the world's great distribution centers.

First Elections

Democratic self-government of the bureaucratic sort decreed by the Mexican Republic came to Yerba Buena (later named San Francisco) before the town itself arrived. Citizens of the partido (civil district) of San Francisco, on Governor Jose Figueroa's orders, assembled at the Presidio on Dec. 7, 1834, to choose electors for the Ayuntamiento (district council). On the following Sunday, Don Francisco de Haro was elected to the district council as Alcalde for the projected pueblo of Yerba Buena.

Naming of the City

The village of Yerba Buena, which in 1847 was to be rechristened with the name of San Francisco, in 1835 was still an insignificant outpost frequented by roving seafarers and was little more than a waste of sand and chaparral, sloping down to a beach and small lagoon which has long since been filled in and is now covered by massive commercial structures. El Paraje de Yerba Buena (the Little Valley of the Good Herb) derived its name in the beginning because of the aromatic vine found in the underbrush there.

The Bay

In 1835, the Bay was declared a port of entry by Governor Pablo Vicente de Sola. He appointed as captain of the Port of San Francisco, William Antonio Richardson, a young master mariner who had deserted the British whaler "Orion" in 1822 and set up the first "house" in Yerba Buena Cove, made up of some redwood poles over which was stretched a ship's sail.

During 1836, the Port of San Francisco became an important trading post. On July 1, 1836, Jacob Primer Leese, Ohio-born, partner in a Monterey mercantile firm, arrived by the barque "Don Quixote" from Monterey and by July 4 had thrown up a frame house 25 by 60 feet, the first "real" house to be built—part dwelling and part warehouse. He then summoned all the leading Mexican families and other prominent persons to an Independence Day celebration which lasted two days and a night. During the celebration the Stars and Stripes were raised beside the Mexican flag for the first time in San Francisco.

First Survey

In the autumn of 1839, Jacques Vioget, a versatile Swiss of the Peruvian brig "Delmira," was commissioned by Alcalde de Haro to make the first land survey of Yerba Buena. By 1841 thirty families comprised the village population. During the next five years some of the prominent early settlers shifted to other localities in the Bay Area. At the same time, Yerba Buena, outrivaled by the port of Honolulu, drifted back into obscurity.

"The Portsmouth"

Then, on July 9, 1846, the "U. S. S. Portsmouth" quietly dropped anchor in Yerba Buena Cove, and Capt. John B. Montgomery and 70 sailors and marines came ashore and ran up the Stars and Stripes on Mexico's flagpole atop the abode Custom House near the Plaza, as the "Portsmouth" gave a 21-gun salute. Thus passed the rule of the village of Yerba Buena from Spanish to American. On Aug. 6, 1846, Captain Montgomery appointed Lieut. Washington Allen Bartlett as the first Alcalde of Yerba Buena under the American flag. Bartlett was confirmed by public vote on Sept. 15. His first important decree ordered the revision of Vioget's survey, which had served to locate building lots since 1839. His civil engineer, Jasper O'Farrell, in making the survey, discovered in 1847 that streets as laid out in the early survey intersected at 2½ degrees from a right angle. Correction of this error, known as "O'Farrell's Swing," was made promptly.

A Reception Center Since Gold Days

When gold was discovered on Jan. 24, 1848, in Sutter's millrace on the American River, and the evidence reached San Francisco's nearly 900 inhabitants, the first gold rush, led by Sam Brannan, publisher of the town's newspaper, "The Star," left only seven inhabitants behind. As the news spread around the world and ships came streaming into the harbor, a year later found over 6,000 miners at the diggings, and San Francisco again was a cantonment of tents with a population reported at 2,000 excited transients.

GOVERNMENT

San Francisco has a consolidated City and County government, with legislative powers vested in a board of supervisors of eleven members, five and six being elected every two years for four-year terms. The Mayor, Treasurer, Assessor, City Attorney, Public Defender, District Attorney, Sheriff, and Superior and Municipal Court Judges are elected by the people and serve terms of four years. The Chief Administrative Officer is appointed by the Mayor, but thereafter has permanent tenure. The Controller, appointed by the Mayor, subject to confirmation by the Supervisors, also has tenure. The Mayor appoints members of and supervises police, fire, civil service, public utilities, park and recreation, welfare, library, city planning, art, housing, parking permit appeals, redevelopment, retirement (in part) and welfare boards or commissions, and may remove his appointees except civil service, public utilities, recreation and park, and welfare commissioners, and members of the school board. The Mayor also has a power of veto over legislation.

The San Francisco Unified School District and the City and County have coterminous boundaries. Members of the Board of Education are nominated by the Mayor and passed upon by the voters.

San Francisco has operated under five charters, granted in 1850, 1856, 1861, 1898 and 1932.

Initiative and referendum clauses were first embraced in the 1898 charter.

Mayor James Rolph, Jr., took office in 1911 and served five successive terms, until he became Governor of the State. In 1931 he was succeeded by Angelo J. Rossi, who served until 1944, when he was succeeded by Roger D. Lapham, who pledged himself in advance to one term only. Mayor Elmer E. Robinson took office Jan. 8, 1948, for a four-year term, and was re-elected for a second four-year term ending Jan. 8, 1956. The present mayor is George Christopher.

HARBOR AND COMMERCE

Centered in the San Francisco Bay Area, San Francisco is an important port of general commerce, handling a large and valuable domestic and foreign trade. It is the main gateway of commerce for the vast territory of the Central Pacific Coast Area and Intermountain States. The Bay extends from the Golden Gate to the confluence of the Sacramento and San Joaquin rivers on the northeast, and to a point near San Jose on the south, covering an area of 450 square miles. The deep-water commerce enters San Francisco Bay through the mile-wide Golden Gate, and thus shipping is afforded natural protection in the waters of the Bay. To this has been added a comprehensive system of docking and berthing facilities, rail and freight connections, modern and well-equipped warehouses, etc. San Francisco harbor has 18 miles of berthing space; 228 acres of pier and wharf area; 42 modern piers; facilities to dock the largest vessels; several dry docks; 60 miles of harbor trackage connecting piers and warehouses; foreign-trade zone; modern grain, refrigeration, banana, cotton, copra and heliport terminals and a truck coordinating service.

The harbor is controlled by the State of California and is governed by the State Board of Harbor Commissioners appointed by the Governor. Of the 43 piers, most of them are assigned to steamship companies having their own fleets and operating their own schedules. San Francisco harbor facilities are valued at more than $100,000,000.

The water-borne cargo tonnage of San Francisco Bay is foremost on the Pacific Coast and high among those of the nation's ports.

Exports during 1957 amounted to	$601,441,529
Imports during 1957 amounted to	$465,204,544

In 1957 the principal exports by value were cotton (unmanufactured); fruits, dried and evaporated; petroleum products; rice; iron and steel products, including scrap; milk, canned, evaporated and dried; machinery; and chemical specialties.

The ten principal imports in 1957 coffee, copra, lead ores and manufactures, newsprint paper stock, lumber and plywood, distilled spirits, wines and malt liquors, wood pulp, rolled and finished steel mill products, and automobiles and parts.

The 1956 report of the U. S. Army Engineers shows the distribution of the cargo tonnage, domestic and foreign, as follows:

Total tonnage, San Francisco Bay	48,514,417
Foreign tonnage	9,656,653
Inland waterway tonnage	16,913,434
Domestic coastwise tonnage	21,944,330

Besides the movement of commodities by water, there is a large rail traffic in San Francisco; during 1958 it reached 147,831 freight-car movements, and 3,905,751 truck movements over Bay and Golden Gate bridges.

San Francisco also is the ocean port for the great inland valleys of California, 500 miles in length and 50 miles wide and containing 16,100,000 acres of farm land. About 6,400,000 acres of this is crop land, of which several million acres are irrigated.

San Francisco is a port of call for numerous shipping lines serving at least 300 of the world's ports.

TRANSPORTATION

Distribution Facilities—A vast transportation network, including transcontinental rail and highway facilities, air transport services, and steamship lines, converges in San Francisco, bringing unexcelled transportation services to local industry and business. San Francisco's fortunate geographic position on the Pacific Coast, combined with excellent distribution facilities, makes it possible for business and industry located here to serve a larger portion of the Western markets at lower distribution costs than can be reached from any other Pacific Coast city.

Rail

San Francisco is served directly by four Class I railroads operating more than 27,000 miles of line. These railroads with their connections thoroughly blanket California and neighboring states, and by means of seven major transcontinental routes and connecting routes provide fast, dependable service to and from all parts of the U. S., Canada and Mexico. Passenger trains second to none are operated to and from the city. Reciprocal switching arrangements are in effect, under which the line-haul carrier will absorb the charges of the switching carrier on competitive traffic. Over 50 railroads maintain off-line agencies here.

State Belt Railroad—These four railroads connect with the State Belt which serves the San Francisco piers and many industries near the waterfront. They absorb the Belt's switching charge on line-haul carload traffic and, in part, on interline switching movements subject to stated minimum revenue per car.

L. C. L. Service—Store-door pick-up and delivery service for less-than-carload traffic is available between San Francisco and practically all points in California and neighboring states, including over-night service to points in the San Joaquin and Sacramento valleys, along the Coast, and Los Angeles.

Water

Fast new marine freighters provide regular service between San Francisco and the Hawaiian Islands, Alaska, Australia, New Zealand, the South Seas, the Orient, Central and South America, the West Indies, Europe, South Africa and North Africa, also the Atlantic and Gulf coasts of the U. S. Luxurious and reconverted passenger liners operate to the Hawaiian Islands, the Orient and around the world. Limited passenger accommodations are available on freighters to Australia, the Orient, Central and South America, Europe, Puerto Rico, South Africa, and the East Coast of the U. S. Barge services for bulk and general cargo are maintained to points on San Francisco Bay and connecting waters.

Highway

Truck Lines—Over 100 common-carrier truck lines provide scheduled service between San Francisco and points in California and neighboring states. Overnight service is available to all important points in California and to southern Oregon and western Nevada. In addition, more than 600 truck operators having headquarters or agencies in San Francisco hold intrastate permits from the Public Utilities Commission of California or interstate permits from the Interstate Commerce Commission.

Bus Lines—Bus lines radiate north, east and south, providing frequent service between San Francisco and all important points in California and the eleven Western states. Two lines provide transcontinental service. Sightseeing buses operate between San Francisco and neighboring points of interest, as well as in the city proper. Buses and limousines are available for charter.

Air

San Francisco is the major air terminal of the Pacific. Its huge international airport ranks among the world's finest. This magnificent terminal was dedicated in 1954 as a living, growing monument to commercial aviation. Expansion of the airport facilities property for jet air line service is being carried on under a multi-million-dollar program at the San Francisco International Airport. Air service originates from here to virtually every point in the U. S., the Far East, Australia, the Pacific Islands, and Central and South America, and direct through-plane service with but one stop between here and Europe. Two major American flag international carriers serving San Francisco have entered air service by a transpolar route from the West Coast to Europe. One foreign flag carrier with CAB approval has designated San Francisco as its West Coast terminus in air service between the Pacific Coast and Europe.

Four of the nation's largest domestic carriers, four overseas lines, and two local service carriers, all certificated, provide daily scheduled services for passengers, mail, express and freight. Overseas air service, Pacific and Atlantic, also is available by three foreign flag lines that have a West Coast terminus at San Francisco. Daily service also is provided by the two leading air freight lines. Many of the world's air lines which do not directly serve the city, have ticket offices or traffic representatives here.

Two of the world's largest carriers have immense maintenance bases at the San Francisco airport, and other lines maintain servicing facilities which will be expanded under the development program now in progress.

Charter services, flight training and facilities for private planes are available at many smaller airports in the vicinity of San Francisco.

MANUFACTURERS

The manufacturing industries in San Francisco comprise an important part of the city's activities, leading the nine major fields of activity in San Francisco in insured payroll. Over one-fifth of the insured employment and payroll was accounted for by the manufacturing industries in 1957.

The insured wages in the manufacturing industries in San Francisco during 1957 amounted to about $383,000,000 or about $123,000,000 above 1950 level.

Many of the large key industries in the Metropolitan Area, with their plants outside the corporate city limits, have their headquarters in San Francisco, from which they conduct their finances, purchases and sales.

Visitors and Commuters

People with regular occupations in the city, but living elsewhere in the Bay Area, and the large number who come here for business and pleasure brought the average daily two-way passenger trips to and from San Francisco through the Peninsula, East Bay, and North Bay gateways to about 310,600 in 1956, compared to 273,900 in 1954 (revised) and 275,175 in 1952 and 220,000 in 1945 and 105,800 in 1940. About 86.3% of the passengers travelled by automobile and 13.7% by interurban transit. About 53% of the passengers move through Peninsula gateways, 31% through East Bay and 16% through North Bay. About one-half the total passengers are workers or people in business.

Prospective visitors and newcomers' written inquiries to the San Francisco Chamber of Commerce during 1958 topped all records, with a gain of 11.2% over 1957.

Stock Exchange

The expeditious handling of widely-diversified financial transactions has contributed greatly to the sound industrial and trade relations between San Francisco and the Western Regional Markets. SAN FRANCISCO . . .

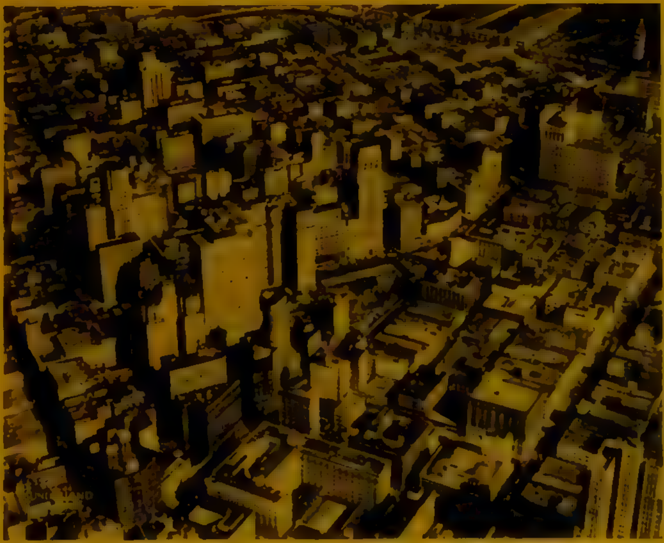
Headquarters City of the West

Attesting to San Francisco's growth as the nation's western capital, more than $300 million has been authorized or announced in the city's central business district since 1955 for construction or modernization. With 30 large corporations having national headquarters in San Francisco with combined assets of $34 billion, an increase of $12 billion since 1950, the continuous development of the city as a managerial center is assured.



It's a Pleasure to Live, Work and Do Business in San Francisco

San Francisco's location on one of the world's most beautiful bays creates an ideal year-round "air-conditioned" climate unequalled by any other large city in the world — the daily mean maximum temperature is 62.6 degrees, the daily mean minimum 50.4 degrees. A mecca for visitors, who last year exceeded one and a half million, the area is unique in recreational facilities.

Business Activity

Since 1940, the nine-county San Francisco Bay Area of which San Francisco is the core city has enjoyed a 414.3 per cent increase in retail trade, a 437.5 per cent increase in bank debits, a 373.0 per cent increase in wholesale trade, and a manufacturing payrolls increase of 435.7 per cent.

Population

On January 1, 1959, San Francisco had a population of 821,000. About 310,000 additional persons enter and leave the city daily, creating a San Francisco market of more than a million persons. The thirteen-county San Francisco Bay Region has had a monthly increase of 10,433 new residents since 1950. The population now totals about 4,361,800 and by 1970 is expected to reach 6,000,000.

Industrial Growth

New and expanded factory plants totaled 1,003 in the Bay Region during 1958 and represented investments of $340,195,341, bringing the 1948-58 total to $2,038,306,173. Manufacturing payrolls in 1958 amounted to $1,243,621,000 in the 9-county area, about $513,640,000 above the 1950 level.

Domestic Trade

Seven major market week showings held semi-annually attracts tens of thousands of buyers as does the annual World Trade Fair. The Western Merchandise Mart, largest complete home goods wholesale market center on the Pacific Coast with over 3,100 lines of merchandise represented, draws more than 100,000 buyer-registrations annually. San Francisco sells almost twice the amount of goods at wholesale per capita than any other major city in California—and more than any other large city in the West. 1,600 branch offices of national and regional firms make it one of the largest branch office centers in the West.

Port Facilities and World Trade

San Francisco has a $120 million investment in its magnificent waterfront facilities, and the Port Authority has expended $25 million in the past decade on modernization. An additional $50 million program is under way. Total volume of foreign, coastwise, intercoastal and inland shipping in 1958 was 5,672,866 revenue tons. San Francisco Customs District exports in 1958 totalled $546,272,703 and imports totalled $444,761,648. More than 250 air and marine lines maintain offices or agencies in the city.

San Francisco International Airport

More than $72 million has been invested in this excellent facility. An additional $25 million program is planned.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Relax in a genuine Chinese Tea House and view Chinatown thru our picture windows.
Deem Sum at Midday, Our Specialty ***Family Dinners - Reasonable Priced***

There are but few restaurants in Chinatown that serve Noon Tea and one should find out where they are. These lunches start about 10:30 a.m. and last through until about 3 in the afternoon. They are a close counterpart of the tea houses all through China and Formosa.

Dim Sun foods are both salty and sweet containing as many as twenty varieties, among which are steamed biscuits with special meat filling; also vegetables containing minced sea food. The fillings contain half dozen or more condiments.

The most usual menus offered are

1. Ha-gow (shrimp with vegetables cased in rice flour dough)
2. Su-mi (pork meat ball with vegetable)
3. Char-shew bow (bun with roast pork stuffed)
4. Tin Bow (sweet bun)
5. Chun-goon (egg roll with pork)
6. Gai-goon (chicken rolls)
7. Py-gwut (spare-rib)
8. Dim sun (pork with vegetable in a wonton covering)
9. Dow-foo yee (stuffed bean cake with fish)
10. Doong-goo yee (stuffed mushroom with fish)
11. Bok-tong go (sweet rice cake)
12. Don-tart (egg tart)
13. Ma-lei go (sponge cake)
14. Lo-mein (soft noodles with pork or chicken)

CAUTION . . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Out of Sight! • Out of Mind! • Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. ***Insist on being well represented in its pages.***

World's Largest "Circulation"

Names and addresses of 39,977,700 passenger car owners and 8,427,900 truck owners . . . families and concerns who buy more than three-fourths of the nation's consumer goods . . . arranged by street and number . . . by city, county and state . . . by make of vehicle and year model . . . are available to the nation's largest advertisers. Yearly, R. L. Polk & Co. compiles for the automotive industry the official registration list of car and truck owners — the largest, most accurate mailing list in the world.

Through this great "circulation list," and through Polk's nation-wide direct mail advertising distribution facilities, the automotive industry and hundreds of other major concerns reach selected markets for their products . . . send advertising messages pin-pointed to the very prospect or customer they wish to reach . . . each advertising message imprinted with the local dealer's firm name and address, and sent to his own selected sales territory.

This world's greatest "circulation list" is a major sales tool used by industry to help move the goods and services that keep our economy rolling, helping to sell not only automobiles, but oranges, magazine subscriptions, vacation tours, and household appliances.

Serving the Automotive Industry and its Dealers since 1923
